Subject: ICML 2021 Decision for Paper ID 580
Date: May 8, 2021 at 5:15 PM
To: Xinqi Zhu xinqi.zhu@sydney.edu.au

Dear Xinqi Zhu,

We are pleased to inform you that your ICML 2021 submission Lie Group VAE for Disentanglement Learning, with paper ID 580, has been accepted for long presentation at the conference, and for publication in the conference proceedings. Congratulations!

There were 5513 submissions to ICML this year, of which the program committee accepted 1184 for presentation at the conference, including 166 long presentations and 1018 short presentations. You can access the reviews and meta-review of your paper by logging in to the author console at <https://cmt3.research.microsoft.com/ICML2021/>.

Action items are highlighted below.

****ACTION ITEM:** The conference will be held online as a virtual conference in July, with a mix of pre-recorded talks, poster sessions, and opportunities for networking with others. To help us with the conference program planning, please also fill out this form by Friday May 21: https://docs.google.com/forms/d/e/1FAIpQLSe6MuRGid6CGekMuDLwjKFHy0aGXl9KTkvYJnULLs31SK9lA/viewform?usp=sf_link

****ACTION ITEM:** By June 10, you will need to submit your camera-ready version via CMT. We will send you further instructions shortly. In the meantime, you can start preparing for this by revising your submission as per reviewers and area chair's suggestions and prepare to publicly release your code.

****ACTION ITEM:** This year, each accepted paper will have either a short (5 min) or a long (17 min) pre-recorded presentation, and a poster session. Both with live Q&As. We will inform you shortly on the instructions to prepare your presentation.

We believe that we have an outstanding program this year. A provisional schedule will be posted soon at <http://www.icml.cc/>, and you can (hopefully) find answers to questions you may have at <https://icml.cc/FAQ>.

Congratulations again, and we look forward to seeing you online in July!

Marina Meila and Tong Zhang
ICML 2021 Program Chairs
