Dear Xinqi Zhu,

Congratulations! The following submission was accepted for poster presentation at ICCV 2019:

1479: Approximated Bilinear Modules for Temporal Modeling

The acceptance is contingent on your paper passing an iThenticate plagiarism check.

This year, we received a record number of 4303 submissions (a 100% increase over ICCV 2017), and accepted 1077 papers, for a 25% acceptance rate. Of these, 890 were accepted for poster presentation.

You can access the meta-review and the final reviewer comments in your Author Console at https://cmt3.research.microsoft.com/ICCV2019/. We hope that you will be able to use this feedback to improve the camera-ready version of your paper.

Please note that the camera-ready deadline is August 12th — only three weeks from now. Instructions on how to prepare the camera-ready copy, as well as instructions about the poster presentation format, will be coming in the next few days.

We look forward to the presentation of your paper at ICCV.
